We have a deep understanding of what learning a language involves, and we boast 4 years' experience teaching languages with a focus on developing communication skills through the communicative approach.

Our clients come from different backgrounds and have different requirements, and we offer courses that are tailor-made to meet their training needs quickly and effectively.

ENGLISH COURSES AND TEACHERS

We provide first-class English lessons in well-equipped private rooms in prime London locations. Our teachers are experienced and highly-qualified native speakers who will endeavor to make lessons useful and entertaining for all levels and ages. A wide range of class activities will be carried out and various current and entertaining topics, useful vocabulary as well as some essential grammar structures will be covered and practised actively, in order to improve fluency and accuracy in preparation for the students' exams or future studies.

Class activities will include pair and group-work, group discussions and debates, role-plays, practical exercises and didactic games, while grammar will always be introduced and revised in context, with the active participation of the students. Lessons will be relevant, interesting, highly entertaining and fun, to help students practise and memorise actively the language of daily life!

We offer home-stay accommodation with carefully selected host families located within zones 2-4 of London transport, with easy access to your learning centre and all amenities in Central London.

They will sit with the students during meals and involve them in their daily lives and conversations as if they were part of the family. This type of accommodation will offer your students the unique opportunity to come in contact with British culture and customs, as broad and diverse as it is.
